

## Case Study

📍 Care Homes, UK Wide

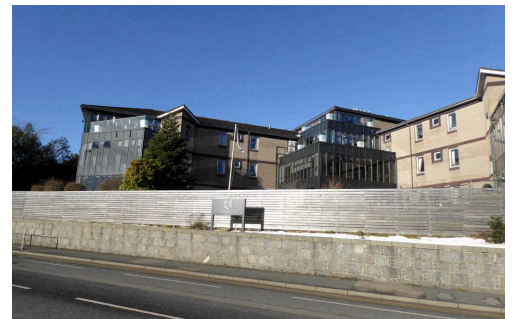

Service :  
Building, Mechanical & Electrical Survey

Pinders Building Services Team were appointed by Elevation Capital to undertake pre-acquisition Building Surveys on 11 care homes held by two independent care groups: one in Scotland, the second in the south of England.

The properties comprised two collections of diverse purpose-built and interesting converted homes spread across a wide geographical area spanning the two countries.

Pinders' reports assessed the fabric of each building along with the mechanical and electrical systems, and included an environmental search, highlighting key aspects for review with the vendors prior to conclusion of the transactions.

Contact the Building Services Team on 01908 350500, or email [building@pinders.co.uk](mailto:building@pinders.co.uk) to discuss your requirements.
