

## Case Study

 Various

Service :  
Acquisition

Pinders were retained by a local authority to confidentially and independently review proposed commercial property acquisitions, identify market factors impacting on the investment opportunity, and consider areas for further due diligence.

Using our extensive commercial property experience and research skills, we were able to not only assess the suitability of acquisitions against pre-defined criteria, but also to cross-refer to our wider business appraisal experience in identifying the potential trading performance of some of the businesses occupying the investment properties.

We were able to provide our client with effective and concise advice to assist with the implementation of their investment strategy.
