

Case Study

 Newquay

Service :
Project Monitoring

Pinders were appointed by Barclays Banks to monitor the development of a unique 37 bed luxury eco hotel and spa complex built in a commanding clifftop position.

Key elements of our monitoring role included an initial development review, monthly progress reviews and verification of payment drawdowns. We were also required to provide advice on contract documentation, nominated and directly employed contractors and ensuring appropriate insurance was in place (due to the main contractor being from Germany).

Contact the Project Services Team on 01908 350500, or email project@pinders.co.uk to discuss your requirements.
