

Case Study

📍 Witney, Oxfordshire

Service :
Project Monitoring

Pinders were appointed by Lloyds Bank, who were providing £5.7m in funding, to monitor the development of this new three storey medical centre, which had to be completed and operational before the existing facility was demolished.

Key elements of our monitoring role included a detailed project review at the outset, ensuring that all consultants' designs and provisions for the development were in place and appropriate; monthly progress reviews; and signing off cash drawdowns at various stages of completion.

Contact the Project Services Team on 01908 350500, or email project@pinders.co.uk to discuss your requirements.
